

93.12.22 cloning

cloning

we are already facing the problem of overpopulation

copy people

create extra mouths to feed

duplicate famous leaders

if it got into the wrong hands

there have been instances where

i saw a film where evil scientists

cloned Hitler and tried to take over the government

create a master race that has qualities

that the government considers desirable

couples are desperate to have children

conceive children

create spare parts for surgery

heart transplant

wouldn't have to wait for sb to die in a car crash

organ bank

advocates of human cloning maintain

that not only does it help childless couples, but also

we create spare parts for surgery

Good luck!
