Do you agree or disagree with the following statement?

Life today is easier and more comfortable than it was when your grandparents were children.

Use specific reasons and examples to support your answer.

With the passage of time and the industrial development you can observe that ~~the~~ technology facilitates life. Although ~~this these~~ equipment help us, ~~using it use of them~~ causes new problems. A question which is the matter of concern is ~~whether is~~ modern times ~~s are~~ better than our ancestral times ~~s~~ (the time of our ancestors)? I am, to a great extent of the opinion that modern time is a suitable place to life.

To begin with, in our modern era, medicine helps us to be alive. Broadly speaking, ~~the~~ medical researcher~~s~~ ~~have~~ contro~~l~~led recent epidemics. Many hospitals help ~~patients~~ ~~ills~~ and you can see a modern medical center in every far village. To be more specific ~~from in~~ my perspective public health is one of the most important ~~of~~ priorities in every society and the government must appropriate~~s~~ a ~~sufficient/suitable~~ budget for this section. Health insurances help us to pay surgical expenses and they must be ~~economically until~~ ~~so that~~ all of people can use them. Doctors with medical equipment check our bodies to be in healthy conditions. One striking example of these conditions is ~~the rise rising in~~ the longevity of people.

Of equal importance is the fact that new machines do our daily works. (~~with?~~) Standing at the turn of the new century, we observe the twentieth century as the machine century. We see many unimaginable tools such as cell phones, airplanes, ~~the~~ Internet and plenty of other innovations that we were not seeing in previous decades. No one can ignore~~s~~ satisfactions (~~that are~~) offered by technology. ~~Washing Clothe washer~~ machines and dish washer~~s~~ ~~machines~~ help us to do our work~~s~~ better and faster. Consequently, we are left with more leisure time to spend at ~~will our free will~~. However, just as an English proverb goes, "Every coin has two sides", technology has hidden pitfalls such as air pollution and ~~makeproduction of~~ nuclear bombs by governments.

To put it in a nutshell, we lead a much better life than our ancestors~~s~~ to recapitulate the reasons, not only ~~do we~~ have ~~we~~ a large number of modern medical centers that help public health, but also many other productions such as cellphones and computers facilitate life.

The following are treated as uncountable requiring singular verbs
