

Do good exam results at school or college guarantee success in life? Discuss.

Do you believe that studying hard will bring a better life?

It is ~~a~~ justifiable to say that academic achievement does not influence ~~on-receiving-achieving~~ a successful life in the future. However, ~~beneficial-benefits~~ of good grades would ~~not~~ be ~~not~~ remarkable. In the same way, it is hard to find a strong link between ~~a~~-studying hard and engaging ~~in~~ ~~the-a~~ sound lifestyle on condition that you can review ~~thea~~ life history of many people who ~~left at~~ school and went on to achieve great things. ~~Although~~, obtaining acceptable marks and studying hard are considered the best way to secure a good job ~~a-and~~ following ~~the-a~~ perfect life, ~~but~~-it is not a certainly true in all cases.

~~In-on~~ the first level, it is better ~~to~~ identify a clear definition of success on the grounds that any one has an individual view about ~~an~~ ideal life, so this essay ~~covers-covers the~~ fringe benefits ~~in-as a~~ result of passing exams with great grades to ~~meet-lead at~~ the superb life. It is obvious that providing a best condition in life ~~are-is~~ derived from several factors. For instance, besides ~~s~~ trying to access reasonable results in theoretical exams through working hard, people should enroll ~~on-in~~ extracurricular activities to gain practical qualifications which help them secure an appropriate, ~~well-paid~~ career ~~with-well-paid~~ in order to catch up ~~with~~ their needs for making ~~the-an~~ ideal life. Moreover, they should update their skills and intellectual knowledge frequently if they are ~~enough~~-interested ~~enough~~ to increase their promotions. All reasons do not stop here, sometimes people claim that ~~a~~ perfect lifestyle ~~means~~ responding to other demands such as job satisfaction or security in ~~thea~~ workplace and so on. These arguments are true but not in all cases and there is not enough evidence ~~which-that~~ exam results have significant impact on items above.

In the next level, there is more to life than work and money, so it is important to make balance between life and work. Too much studying and spending ~~ing~~ a lot of time on working ~~are-led~~ ~~lead~~ to serious social problems especially in terms ~~s~~ of communication. In addition, working hard with the aim of ~~rising-raising~~ general knowledge and cognitive competence or even studying consistently to be professional in a specific field, all of ~~which~~ cannot guarantee ~~to-maintaining~~ ~~the-an~~ ideal life unless people can exert their capabilities in practical in business areas ~~s~~ to ~~touch-fulfill~~ their purpose regarding ~~in~~-achievement ~~of a~~ better life.

In total, although there are ~~a-great-deal-of~~ ~~numerous~~ definitions ~~s~~ about ~~the-a~~ successful life but no one can ~~support-provide~~ sufficient evidence that good exam marks and hard studying are considered key items rather than other factors to gain ~~the-a~~ better life..
