

Many countries want to host international sports events, while other countries think that hosting sports events has more problems than benefits. Discuss both views and give your opinion.

Since a century ago, athletic events have had an important role ~~for in~~ gathering people together throughout the world. So that, thanks to ~~all-popular the crowd-pleasures of such~~ games many countries are interested in ~~to-hosting~~ these sports tournaments. However, other countries are ~~opposed~~ and believe that the negative impacts of holding such matches in a country ~~overweight outweigh its its~~ pros. In the following paragraphs I am going to compare both views.

On the one hand, advocates are of this opinion that when your country is ~~the~~ host of such international games, a large numbers of individuals from all over the world will come to watch the competitions. As a result, ~~the businesses~~ would ~~be~~ flourished during this period of time. In other words, not only big stores, but also ~~rather~~ vendors will earn up to three fold more than their average income. Moreover, it is a proper way to advertise the tourist~~m~~ attractions of your country to foreigners. Therefore, it brings about more tourism in near-future ~~to-for~~ the country. In addition, by broadcasting ~~the~~ rights of such international matches, the government would ~~be-benefited from~~ millions of dollars and such a great income would be spent on country development.

On the other hand, the opponents claim that it is true that holding such universal athletic events will inject a lot of money to ~~the~~ country. But, we should note that it has some expenses too. For instance, the expenses are related to accommodating sportsmen in hotels, their meals as well as their transportation. Furthermore, when in a short time, a large numbers of people come to a city, it leads to some irregularities such as traffic congestion as well as disorders in ~~the~~ public transportation system. Moreover, ~~during the holding time of while~~ such world- wide competitions ~~are running~~, the possibility of terrorist attacks will ~~be~~ boosted.

In my opinion, such ~~a~~ great benefits of hosting global sports events are obvious, of course we cannot deny some probable consequences either. But, the negative points are not ~~enough~~-persuasive ~~enough~~ to prevent a country holding such international matches.

To sum up, governments by imposing ~~district-rigid/strict~~ laws during the time of tournaments in the city as well as proper procurement could ~~be~~ benefited from ~~the~~ advantages of hosting these competitions.
